

## eICS™ 4.4.4 Release Notes

These notes describe highlights of the eICS 4.4.4 release scheduled for Monday, February 10, 2020. More information is available through your solution or by contacting the Juvare Support Center at 877-771-0911 or [support@juvare.com](mailto:support@juvare.com).

### Configuration of Welcome Emails

Updated the configuration for creating new accounts, giving admins the option to bypass generating welcome emails until new accounts are fully configured. Once configured, admins can provide details on eICS access to the new accountholder before the welcome email is generated.

### After Action Reports

Modified the format of After Action Reports to be compatible with the format used by the Federal Emergency Management Agency (FEMA). Submitting reports using the new format helps to simplify and expedite reimbursement processing by FEMA.
