

eICS™ 4.4.6 Release Notes

These notes describe highlights of the eICS 4.4.6 release scheduled for Monday, March 30, 2020. More information is available through your solution or by contacting the Juvare Support Center at 877-771-0911 or support@juvare.com.

Event Log Tab

Improved the time it takes to display new log entries in the Event Log screen.

Incident Screens

Updated the system response time across multiple incident screens, improving solution performance.

Resolved Issues

Resolved issues preventing the ICS Chart tab from functioning properly when candidates update their availability during the initial stages of incident creation.
