# EMSupply™ 1.4.8 Release Notes

These notes describe highlights of the EMSupply 1.4.8 release scheduled for Wednesday, May 6, 2020. More information is available through your solution or by contacting the Juvare Support Center at 877-771-0911 or support@juvare.com.

Resource Requests

- Added an automatic timer to the Resource Requests page, which refreshes the Resource Request list. The list can be manually refreshed by clicking the timer.

- Updated the Resource Request list, which now only displays active resource requests. Rejected or Completed resource requests only display for 24 hours after the most recent update is made.

    Note: All resource requests, including Rejected or Completed requests, are included in exported reports.

Location Types

Added new location types, such as Dental Office, Non-Standard Healthcare Agency, Human Services Agency, and In Home Care. Location types are sorted alphabetically.
