

Automated Scheduling of Second Dose Plugin Setup

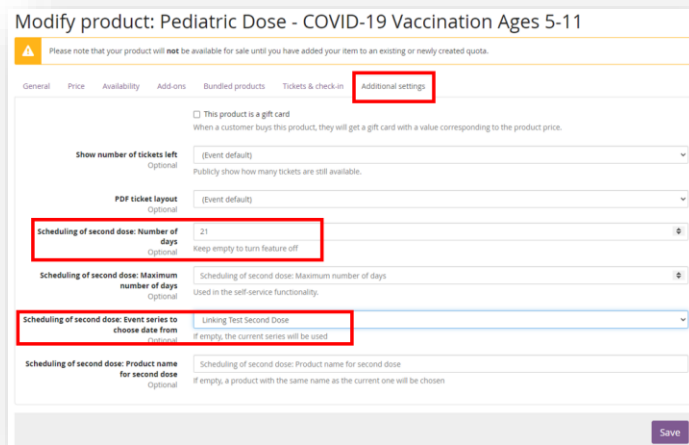

Overview

This document details the steps necessary to set up the 'Vaccination: Automatic schedule of second dose' Plugin

Linking the Product between Events

1. Log in to Juvare Events
2. Navigate to the first dose Event
3. Select **Products** on the left side
 - a. Select the Product that will need to be linked to the second dose Event
 - b. Select the **Additional Settings** tab
 - c. Enter the appropriate value for the 'Scheduling of second dose: Number of days' field
 - d. Using the 'Scheduling of second dose: Event series to choose date from' drop-down, select the desired second dose Event

Note: Please ensure that the Product is named the EXACT same between first dose and second dose Events.

Modify product: Pediatric Dose - COVID-19 Vaccination Ages 5-11

Please note that your product will not be available for sale until you have added your item to an existing or newly created quote.
